

CPP ScaleArmor™ melt-blown polypropylene and ScaleArmor™ media

Cartridges combining a pre-filter element made from melt-blown polypropylene with ScaleArmor™ media for anti-scale water conditioning. CPP ScaleArmor™ cartridges provide fine sediment pre-filtration at 5 micron and anti-scale and anti-corrosion treatment with proven effectiveness that removes with time old calcareous incrustations and offers a corrosion protection for boilers, pipes, pumps and appliances. CPP ScaleArmor™ cartridges are available in 10" and 20" heights, standard and BIG (4,5" OD)

 **MAX WORKING TEMPERATURE**
45°C (113°F)
